**International School of Hydrocarbon Measurement**

May 12, 13 & 14, 2026

Oklahoma City Convention Center, 1 Mick Cornet Drive

January 1, 2026

**Howdy ISHM 2026 Exhibitors!**

A new year and a new ISHM Logo. That's a fresh start for working together once again! This packet has the order forms and information pages that will make your process more easily managed. When you come to OKC we want you to arrive happy, knowing that everything in your event plan is under control. But, if this is your **First Time To Exhibit**, expect ISHM to be the best exhibition you'll be in all year.

Since you were last here, the **Oklahoma City Convention Center** has been constantly busy. Impacting us this year is a gymnastics event that precedes our use of the exhibit hall. Getting all that the chalk out is a serious concern, so we are abridging our set-up time to accomplish *everything* on Monday, May 11<sup>th</sup>. Yes, typically we take two days, basically one to erect the booths and one to move-in & fill them up – **but this year will be different.**

**School dates & times stay the same as every year**, but Exhibitor move-in & set-up will be from 5:00 pm to 10:00 pm on Monday, May 11<sup>th</sup>. We've done this before; in fact, every few year we encounter this shift. However, if you're concerned about your particular set-up needs, please call me.

So for now, review the following pages to determine which services, if any, you want to include. The packet begins with the Event Timeline, follows with General Instructions for shipping display materials, and continues with all the Forms needed to make things go the way you want. But if you can't find answers to your questions, just give me a call or email your concerns.

**Betsy Fry 405-623-8183 FrypanOK@aol.com**

It's great having all you *Pardners* coming back again and again to ISHM. Each year I get to know more of you and learn about the fascinating displays you host here. It's my privilege to provide you with show services and I'm counting on you to speak up if I've overlooked something *you* need. And if this is your first time exhibiting at ISHM, look for Frypan at the back of the hall, between the overhead doors. Stop by to say hello!

**Warm regards,**

Betsy Fry
