<p>COPY FRYPAN WITH YOUR <i>BILL</i>                  OF LADING OR                  SMALL PACKAGE LABELS</p>	<p><b>Confirm that your OUTBOUND Freight Notice Forms have been provided to Frypan Partners.</b> This is the notification that freight is in your booth to be processed out from the Exhibit Hall. Frypan Partners service desk is manned during the event. Stop by the Frypan Service Desk during exhibit hours. We don't bite.</p>
<p><b>We use copies for reference, not for placement on your shipment</b></p>	<p><b>Each package must be identified.</b> UPS, FedEx or other Small Package Services require that each piece must have bar-coded customer label attached to each piece. LTL shipments by Common Carrier or Logistic Services must have a <i>Bill of Lading</i> If you plan for outbound shipment, include ID label for each piece corresponding to <i>Bill of Lading</i>. If shipping internationally, customs documents are required. Please be SURE Frypan has office copies of all your shipping documents.</p>
<p>SEND IN <b>YOUR</b> FORMS</p> <p>In-Bound Freight Notice                  Out-bound Freight Notice                  of Lading or Coded Labels                  Labor Order                  Trailer Notice                  Payment Arrangement  <b>THANK YOU</b></p>	<p><b>Pack up &amp; label goods for shipment.</b> Drop off small packages at the Frypan desk, but leave LTL freight in your booth. If needed, Frypan Partners will shrink wrap for shipment. However, if your shipment requires banding, please advise Frypan Partners before the close of the exhibit. Banding material and assistance will be available or provided. Extra pallets are on hand if you need one.</p> <p><b>If you prefer to carry out your goods</b> or take your shipment directly to a UPS or FedEx store, that's no problem. But ... <b>If this approach is a change to your original outbound plan</b>, please be sure Frypan Partners knows not to look in your booth for your pre-arranged shipment.</p>
<p><b>Special Note:</b> ISHM outbounds routed on <b>FedEx Freight &amp; FedEx Express</b> have often been fouled up by this carrier in OKC. In our opinion, FedEx Freight may well understand general LTL shipments, but in OKC they do not realize the intricacies for LTL <u>with trade shows</u>. We urge you to consider this all too frequent factor with FedEx as you make your plans to ship out from Oklahoma City. We prefer using the ABF Freight Systems Trade Show Division</p>
